CEO, TIM MALLAD, DONATED JAPANESE MAPLE TREE TO PVN

On Jan. 6, Presbyterian Village North received a Japanese Maple tree from Forefront Living CEO, Tim Mallad. Mallad gifted the tree to PVN in memory of his late mother, Gerry Mallad.

"Mom enjoyed the tree so much," said Mallad. "I wanted her friends to be able to experience it the same way she did."

The tree's new home will be in the vicinity of PVN's new gatehouse.

"PVN's campus is filled with natural beauty and you have to be able to gift something special to stand out on such an outstanding campus," said Mallad.

Mallad planted the tree in his own backyard over 12 years ago. Since then his family has enjoyed the color change each spring and fall.

"It is my hope that the residents at PVN enjoy the tree and enjoy its bright red color as much as my family did."

FUN FACT ABOUT JAPANESE MAPLE TREES:

Some people eat the leaves.

Japanese maple leaves can be a tasty treat! Some like to cover them in a sugary batter and fry them to enjoy. Does that count as a salad?

**Please do not attempt to try this with the tree on the PVN campus.*

WHAT TO EXPECT WHILE THEY'RE CONSTRUCTING

A Guide to Construction at PVN

JANUARY 11 - 15

- Work on the elevator foundation continues for the Hawthorne garage.
- Contractors will begin to pour concrete for the Hawthorne garage walls.
- This week work will begin on the concrete around the gatehouse area.
- Framing for the gatehouse is expected to begin toward the end of the week.
- This week some areas in the Corrigan will begin to close. To see a map of when each area is expected to close, [click here](#).

**All timelines are subject to change due to weather or other unforeseen circumstances.*

#QTNA QUESTIONS THAT NEED ANSWERS:

BY JARRED RICHARDSON

Q Do the contractors need a special license to drive the heavy machinery?

Q Is there any indoor work being done on rainy days?

A They typically need to hold a commercial driver's license. Training is usually completed at a vocational trade school or two-year college.

A Yes, preparations for the Corrigan renovation is ongoing when weather prohibits outdoor work.
